

**14th International Symposium –Boston, Massachusetts
March 16-18, 2012**

Symposium Day 2 – Sunday, March 18, 2012

	AM TRACK 1	AM TRACK 2
8:30-9:45	<p>Our Decade of Research on Identifying Underlying Neurocognitive Mechanisms in Children with Sensory Processing Disorders Patricia L. Davies, PhD, OTR, FAOTA William J. Gavin, PhD Colorado State University</p>	<p>An Intervention for Sensory Dysfunction in Autism: A randomized control study Roseann C. Schaaf, PhD, OTR, FAOTA Thomas Jefferson University</p>
9:50-11:05	<p>Basic Neuroscience Research to Advance Clinical Treatment for SPD Edward D. Levin, PhD Duke University Medical Center</p>	<p>The Sensory Processing Scales: The latest in assessing sensory modulation Sarah Schoen, PhD, OTR Assistant Director of Research Sensory Processing Disorder Foundation</p>
11:10-12:25	<p>Ayelet Ben-Sasson, ScD, OT University of Haifa, Israel</p>	<p>Examination of Qualitative and Quantitative Aspects of Sensory Processing Disorders in Adults Jane Koomar, PhD, OTR Teresa A. May Benson, ScD, OTR The Spiral Foundation</p>
12:25-1:30	Lunch	Lunch

PLENARY SESSIONS

- 1:30-3:00 **Multisensory Processing in Children: Implications for Sensory Processing Disorder**
John J. Foxe, PhD
Albert Einstein College of Medicine, New York
- 3:00-3:15 Break
- 3:15-4:45 **Update on Neuroanatomical Observations in the Brain: Clues to Sensory Processing Disorder**
Margaret Bauman, MD
Massachusetts General Hospital, The Lurie Center for Autism
- 4:45-5:00 Closing
